

New Growth Counseling Services

Introduction to Couples Counseling

Welcome to counseling. People and their situations are often very complex – your counselor will need to understand as much of the context as possible in order to help with a solution. The following paperwork (though extensive) is designed to provide that context quickly. Please complete it and bring it to your initial appointment.

- The informed consent is your formal agreement to enter therapy – please be sure that you understand all the items, if not, ask your therapist about them before you sign the form. Each adult needs to sign the consent form.
- The “questionnaire” follows – only one person needs to complete it.
- With two people come two perspectives – each adult needs to complete the “reasons for seeking counseling” the “problems and other symptoms” and the “substance use checklist” paperwork – two copies of each form are included. Please complete these three sections without input from the other person.

Thank you for completing these forms.

Sincerely,

New Growth Counseling Services

New Growth Counseling Services - Informed Consent
(each adult should review, understand and sign below)

Your signature at the bottom of this page means that you understand and consent to the following policies and procedures:

Counseling is a collaborative process between therapist and patient(s) who work together on mutually agreed upon goals.

Participation is voluntary and is only effective when both patient(s) and therapist are actively striving for the patient's growth and change. Patients realize that participation in therapy can involve discussing issues that may be distressing – however, therapy is designed to help patients personally and in their relationships. When minors are involved, it may be necessary that parent(s)/guardian(s) participate in the counseling process with their child(ren) at the discretion of the therapist. Some problems may be best resolved with the participation of other family members or close relations.

Appointments are made in advance and start and end on time – a session lasts 50 minutes. If a patient is late, the session will still cost full price and end at the pre-arranged time. 24-hour advance notice is expected for cancellation or rescheduling. Any patient who fails to cancel, cancels at the “last minute,” or doesn't attend a regularly scheduled session *will be held responsible for full payment of the missed session*. Lateness, or cancellations made by the therapist will be rescheduled.

Emergencies: in the event of an emergency dial 911 or [\(888\) 724-7240](tel:8887247240). The therapist will discuss emergencies with you and may provide emergency contact information at their discretion. As a rule, most telephone calls will be returned during normal business hours on weekdays.

Payment is expected at the time of service and will be collected at the beginning of the session. Any check that is returned for insufficient funds will be assessed a \$25 fee.

Confidentiality is vital to trust - all sessions are confidential. This means the therapist will not discuss any aspect of the session or case with anyone outside of therapy without prior written consent of patient(s). It is important that a patient (especially children) has a confidential relationship with their therapist.

➤ **Secrets** within relationships sometimes can be destructive or counter-productive to the goals of therapy. If a patient divulges such a secret to the therapist, the therapist will use his discretion about revealing it. Generally, the therapist will ask the patient to divulge the secret – if the therapist believes the secret is destructive or counter-productive to the counseling process, he may refuse to continue working with the patient until the patient reveals the secret. In cases of danger, the therapist may reveal the secret to maintain safety.

Limits of confidentiality: The following are exceptions to confidentiality and *MUST BE REPORTED* to the appropriate service and/or police. Please note – these reports are mandated by law and may be made without your consent or written permission.

1. If a patient (s) become a danger to himself/herself, steps will be taken to keep the person safe.
2. If the patient should become a danger to another identifiable person(s), the potential victim(s) will be warned and the police will be notified.
3. Any suspicion of child abuse (including physical, sexual, and/or emotional abuse as well as child neglect or endangerment) whether past or present, previously reported or not, will be reported.
4. Any suspicion of abuse or neglect of an elder or dependent adult will be reported to Adult Protective Services.

I authorize New Growth Counseling Services staff / therapist to leave voice messages at my home or with a family member or friend regarding appointments, billing issues, or other pertinent information regarding my Behavioral Health Care.
